V. CURRENT BUSINESS

1. *Design Subcommittee Report*

Chair Jill Johnson-Tucker noted that she and Committee Member Matthew Witte White reviewed the presentations and discussed whether follow-up was necessary. She stated both teams offer a broad understanding of what the Committee hopes to achieve.

Committee Member Matthew Witte opined the process has been very thorough and noted both principals at the firms have been very involved. He stated he is very comfortable with the two firms that have been chosen. He noted both are small firms but with diverse architecture types.

Committee Member Matthew Witte also noted both firms have experience with auditoriums. He noted Bob Coffee's firm is local and one with whom they have worked in the past. Ultimately, he stated he would be happy with selecting either firm.

Chair Jill Johnson-Tucker stated she is enthusiastic about both firms.

Mayor Diane Dixon asked Committee Member Matthew Witte how the two firms are different.

Committee Member Matthew Witte noted the Sander Architects firm is more avant garde whereas Robert Coffee Architects is more traditional. He noted Robert Coffee thought of an idea related to parking that no one else considered, and that the re-configured parking lot showed innovation on the part of RCA.

2. Committee Discussion of Request for Proposal Proposals, Presentations and Responses to Additional Questions

Vice Chair Janet Ray raised the concern that Sander Architects and his team haven't built a building together. She was also concerned that they did not incorporate changes to the parking lot to address the sense of arrival. She felt that Robert Coffee's presentation was thorough and beautiful but that Sander had creative ideas regarding the shape of the hall.

Committee Member Karen Clark noted she thought Robert Coffee's team was the best. She particularly appreciated Robert Coffee's team's thorough response to the LLH's follow-up questions.

Mayor Diane Dixon noted she was also impressed by Robert Coffee's team. She also commented on Coffee's team's price and that it is significantly less than that of the other architectural team.. She also stated she is concerned about the two firms in the Sander's team who have never worked together. Finally, Robert Coffee's work is known in the City and he has a good reputation. Mayor Diane Dixon noted they want a distinctive building but above-all, a functional building.

Chair Jill Johnson-Tucker stated she believes Robert Coffee understands the direction the Committee would like to take. She agreed that foremost the LLH is seeking a building design that functions well.

Committee Member Matthew Witte asked what the process will be post-selection.

Peter Tauscher noted the City could be flexible regarding meeting frequency and also form subcommittees if needed. He stated he would like as much input as possible.

Committee Member Matthew Witte noted both firms would be receptive to the Committee's comments and opinions.

Peter Tauscher reminded that committee that the RFP included fifteen meetings and more can be added.

Chair Jill Johnson-Tucker stated a more formal calendar would be put together for the project.

Mayor Diane Dixon asked what the next step is and what the Council will be asked to approve.

Peter Tauscher noted the item to be approved by Council would have to do with payment to the contractor.

Committee Member Matthew Witte spoke about contractor fees and payment.

Mayor Diane Dixon asked about the meeting when the project will be presented and she stated the public needs to be involved.

The Committee discussed whether the project would be a consent item or a study session.

Peter Tauscher noted the Council meeting was changed and will be November 19th.

The Committee discussed the contract may not be ready until January.

Mayor Diane Dixon noted community support is key. She spoke about fundraising and the comfort it will provide Council to see community support.

Committee Member Witte noted both firms spoke about their experience fundraising.

Debbie Stevens from the public spoke and stated she is supportive of selecting Robert Coffee's firm.

Jim Mosher noted he agrees with the Committee because the Sander Group was too avant garde. Additionally, Mr. Mosher was surprised the Sander team had not built anything together. He suggested that Council be provided with a timeline for the design phase.
