

A photograph of a sailing regatta on a bay. In the foreground, several sailboats with white sails are visible, some with red and blue numbers. The background shows a hillside with many houses and a bridge. The text "Sailing & Charter Coordination Meeting" is overlaid in the center, and "May 10, 2012" is at the bottom.

# **Sailing & Charter Coordination Meeting**

**May 10, 2012**

# Lower Bay Dredging

- R.E. Staite

- Active Construction Areas

- Be Aware of Construction Equipment
- New and Changing Mooring Areas
- Tow Lines

- Construction Hours

24hr tide dependent schedule – night work shouldn't affect programs/charters

## Newport Harbor Racecourse Markers

- Racecourse Markers
- Typical Start/Finish Locations
- Mooring Areas

**Note:** The themes represented on this map are approximate locations and should be treated as such.

# Communication

Please distribute to:

- All Captains
- Post on Bridge
- Race Committee Towers
- Committee Boats
- Sailing Instructors

## Racing & Charter Boat Protocol

If you see a potential conflict with your race or cruise, ***communicate*** with the corresponding vessel or race committee vessel / tower as suggested below:

- Keep VHF radio on Channel 16 at all times.
- Make the following transmission on Channel 16 prior to starting the race:  
**“SECURITAY, SECURITAY, SECURITAY. Newport Harbor. This is Race Committee Vessel (name of vessel). We will be conducting a sailboat race in Newport Harbor at (location), from \_\_\_\_\_ to \_\_\_\_\_. All concerned traffic call Race Committee Vessel (name of vessel) on Channel 16. This is Race Committee Vessel (name of vessel), Out.”**
- On receipt of a call from another vessel, direct that vessel to switch to Channel 17 or other preferred channel.  
 Switch to preferred channel and inform other vessel of your intentions. Make passing arrangements with them.
- When a charter or private vessel is observed approaching the race area, either before or during the race, hail them on Channel 16, direct them to switch to Channel 17 or other preferred channel, and make passing arrangements.  
 If you are unable to identify the approaching vessel by name, address them by their location, distance from your vessel and their heading.
