Subject: **Notice of Traffic Impacts / Closures
Corona del Mar Water Transmission Main Project**

We're nearly done with the big Water Main Project that's impacted your lives and travels for months. A new water main now supplies drinking water from the Big Canyon Reservoir down to Bayside Drive at Carnation Avenue in Corona del Mar. The water transmission main serves multiple purposes: backing up supply to your water system, improving water pressure, minimizing demand peaks and improving supply for fire protection.

The last phase of work requires one more big road closure primarily along Westbound Coast Highway, shown on the reverse of this notice.

To minimize disruption to you, we have asked the contractor to do some of the work during the day and some of the work at night. This keeps traffic flowing – as best as possible – through Corona del Mar. However, we also understand the importance of getting some sleep for area residents. This is a large and important piece of the project and our goal is to get the contractor in and out of that area as quickly as possible.

Closures will occur from April 8 through April 11 on a portion of westbound Coast Highway from Goldenrod Avenue to Macarthur Boulevard starting at 9:30 a.m. and ending by 9:30 p.m. Local traffic may still move through Corona del Mar along Coast Highway up to Goldenrod Avenue. Westbound traffic will be detoured up Newport Coast Drive and up Marguerite Avenue to San Joaquin Hills Road during the closure period. Coast Highway will be open on the weekend.

In case this daytime closure of westbound Coast Highway impacts traffic flow too much through Corona del Mar, we may change the schedule to night work starting Wednesday, April 9. The night work would continue into the week of April 14th and the work hours would be from 8 p.m. to 6 a.m., weekdays only.

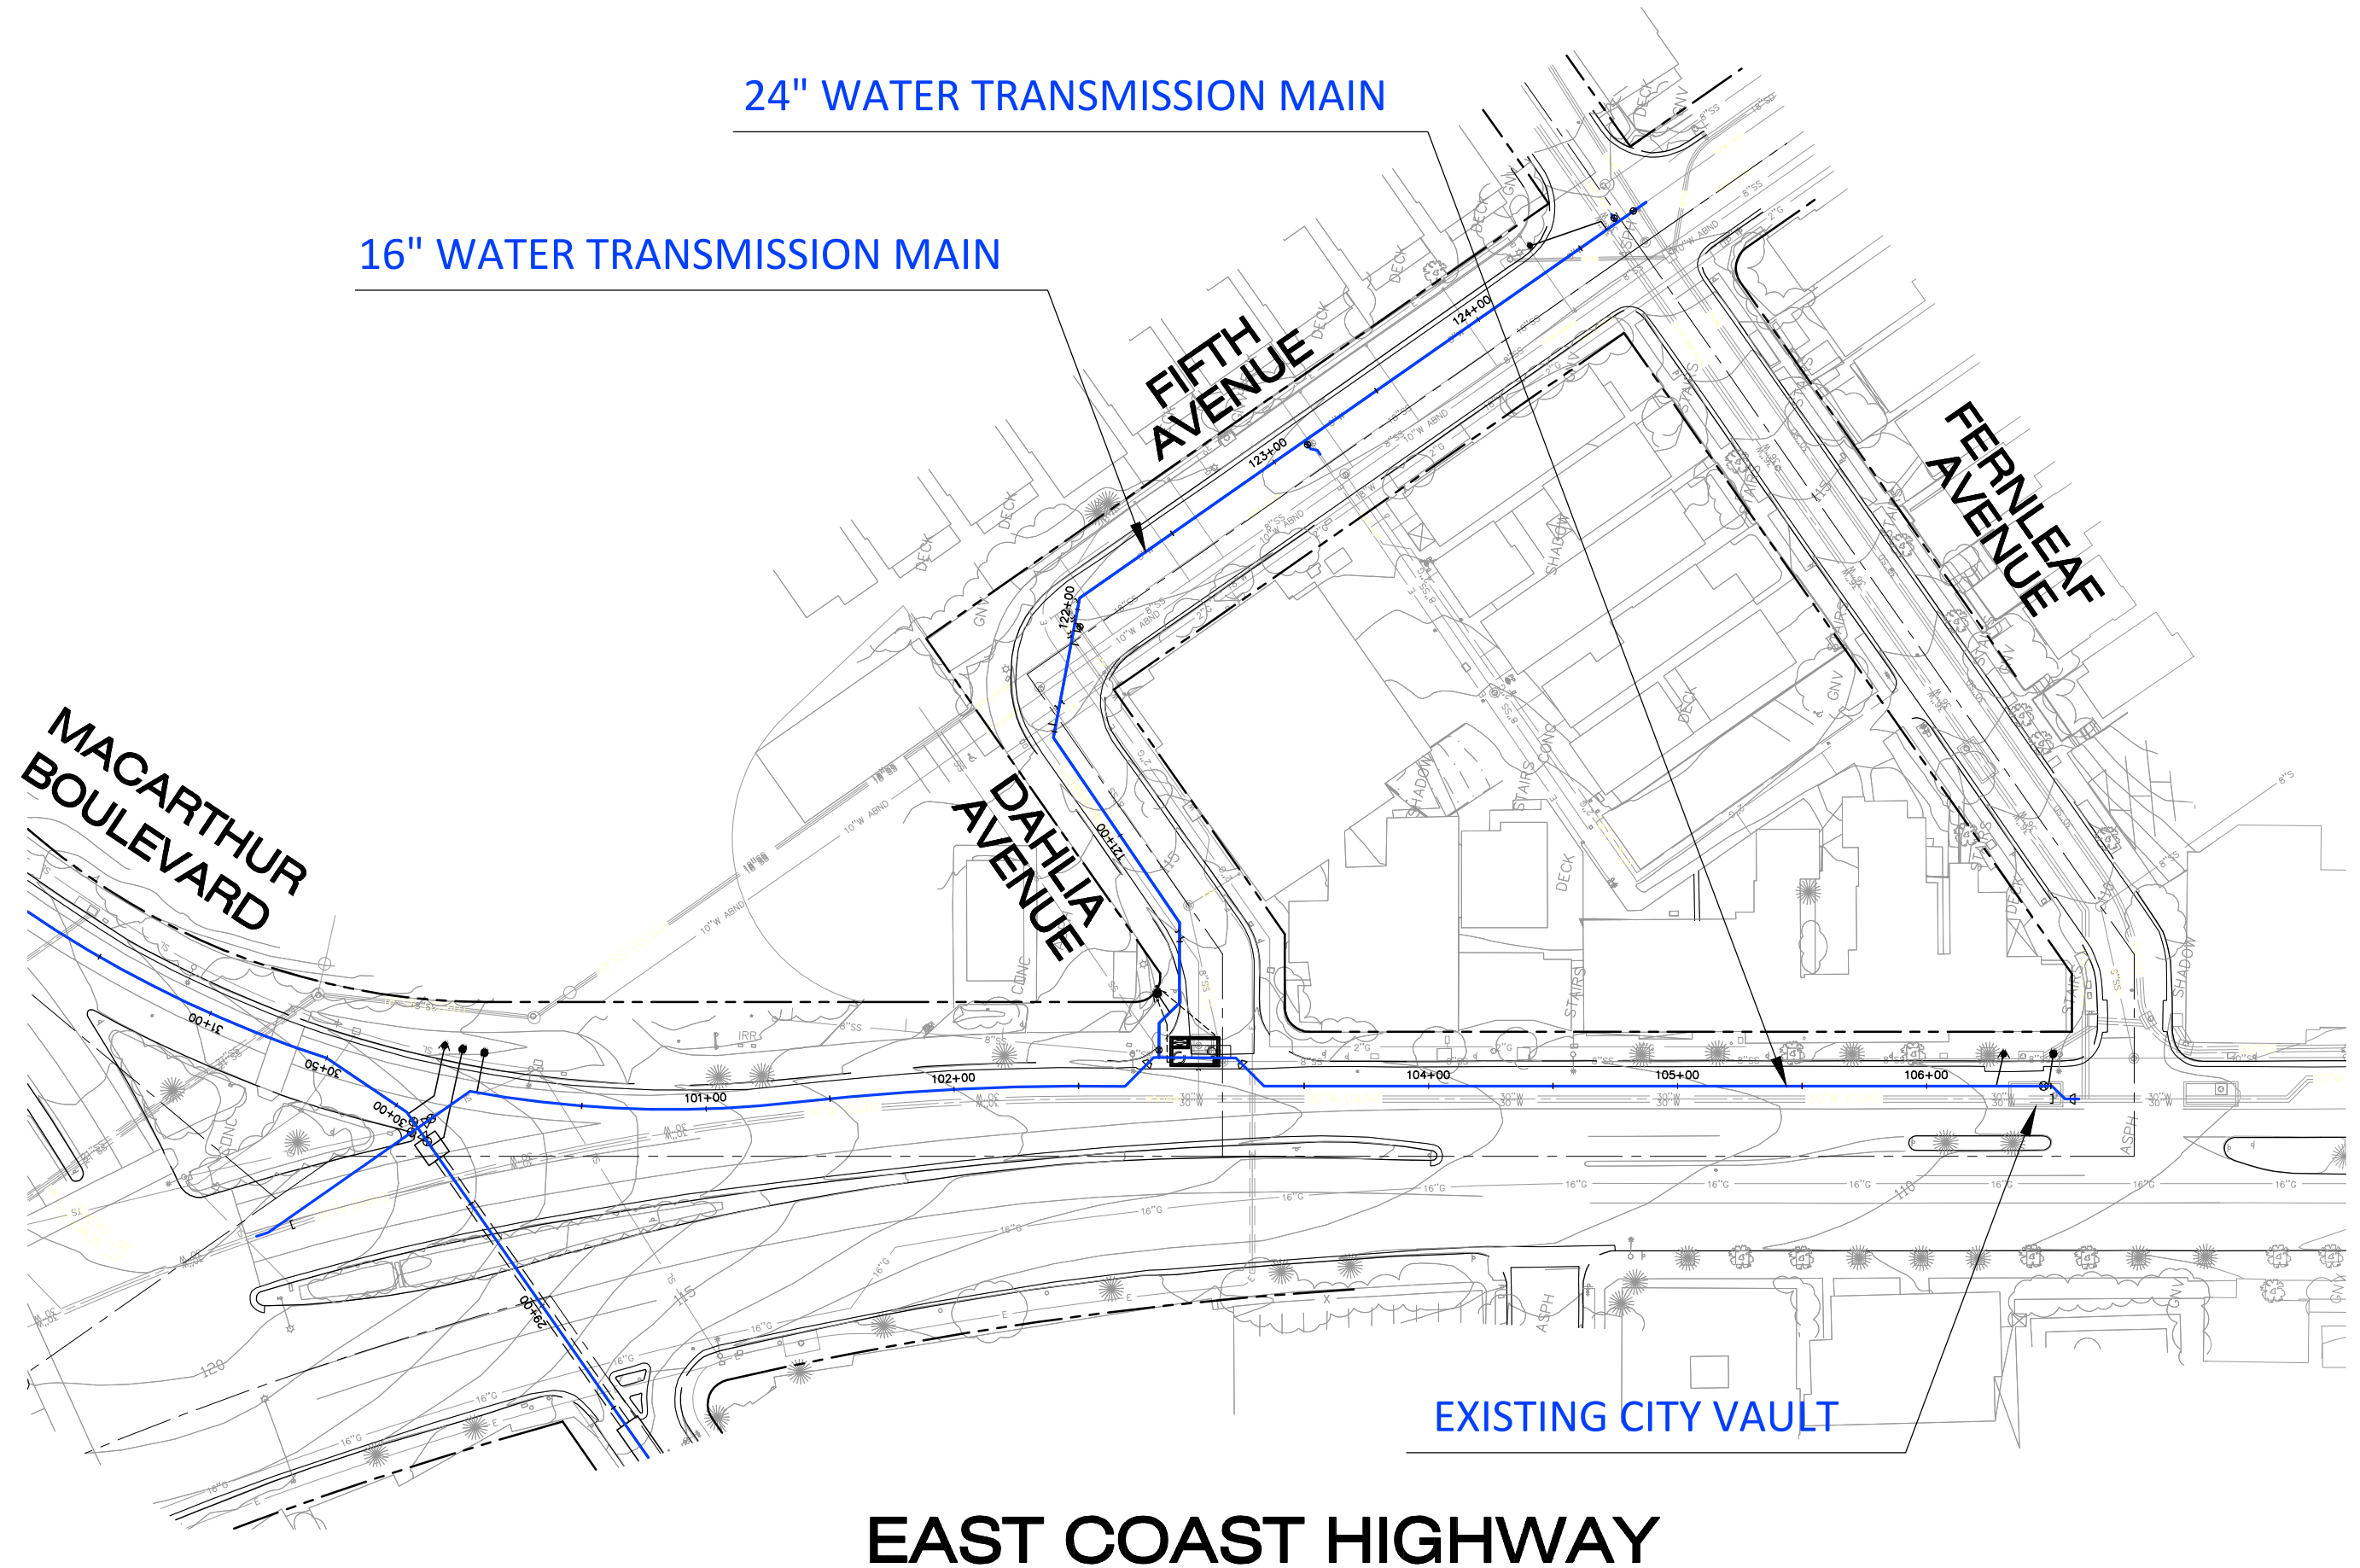

Upon completion of the work on Coast Highway, the contractor will continue construction efforts on Dahlia Avenue during normal 7:00 a.m. to 5:00 p.m. working hours Monday through Friday and should be completed sometime in June.

Should you have any questions, please call Mike Sinacori at (949) 644-3330 or via email at msinacori@newportbeachca.gov.
