Facility Map Instructions

GUIDELINES

- Facility maps are required to assist emergency response crews in locating hazardous materials, appraise the risk during an emergency, assist you in the training of employees, and assist you in drafting your emergency response plans.
- Maps can be drawn in programs such as Adobe Acrobat (PDF), Microsoft Visio, Word, PowerPoint, or Google Sketch up. Any picture or image file can be uploaded. Engineered drawings are not required.

THE FOLLOWING ITEMS ARE REQUIRED TO BE INCLUDED ON THE MAP

- Site Orientation (North, South, etc.)
- Loading Areas
- Internal Roads
- Adjacent Streets
- Storm Drains and Sewers
- Access and Exit Points
- Emergency Shutoffs (i.e. electrical panel, natural gas and water shut-offs)
- Evacuation Staging Areas
- Hazardous Material Storage Areas
- Hazardous Material Handling Areas
- Emergency Response Equipment (i.e. fire suppression equipment, protective clothing)
- Location of fire hydrants, sprinkler risers, fire pumps, and fire department connections
