Caltrans Repaving to Cause Traffic Delays and Detours on Newport Boulevard

NEWPORT BEACH, CA — A contractor working for Caltrans will repave the portion of Newport Boulevard between Finley Avenue and the Arches Bridge and a segment of the Coast Highway / Newport Boulevard interchange beginning Monday, May 5. The project should be completed by Memorial Day weekend.

All American Asphalt, the contractor performing the work, will grind and pave the roadway next week. This phase of the project will necessitate lane closures along Newport Boulevard and ramp closures at the interchange. Drivers should anticipate **significant traffic delays** and detours. Throughout the duration of the project, there will be additional, periodic lane closures for utility adjustments, traffic signal loop installation and striping.

For more information, please contact the Caltrans Information Line at 800-724-0353.
