

Adding eBooks to the Amazon Kindle from Overdrive

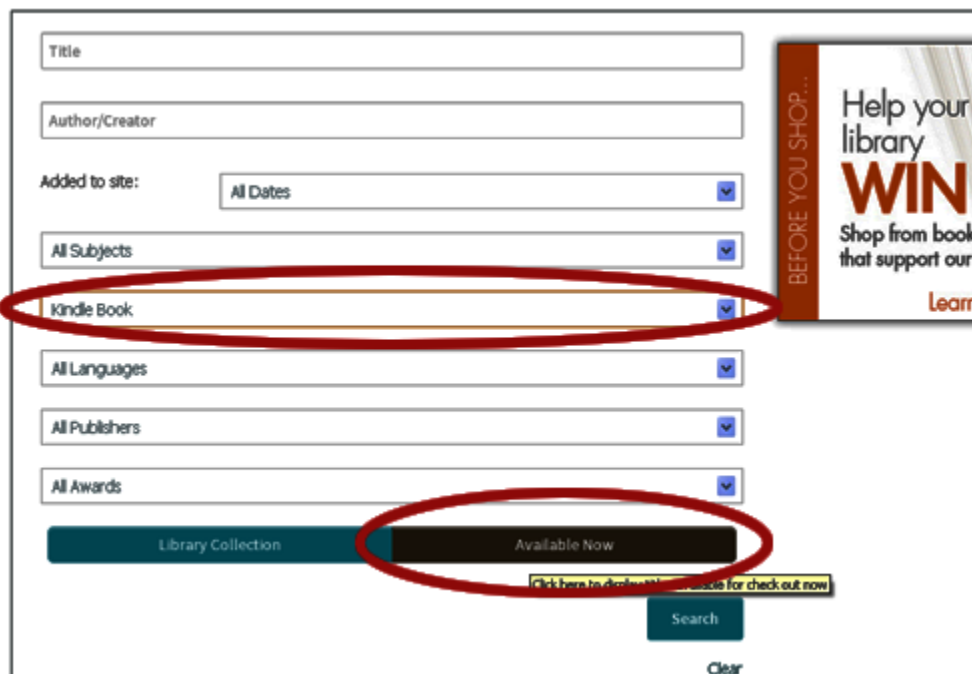

In order to get Overdrive ebooks onto your Kindle, you'll first need to create an account with Amazon and register your Kindle device. Kindle Fire users can download the Overdrive Media Console app instead.

From the library website, visit the eBooks page (from the eBranch tab) and either click the image or the [Overdrive Audio and eBooks](#) link.

On the Overdrive website, select a Kindle-compatible title. For your convenience, you can select **Advance Search** and have Overdrive display only Kindle books.

To do this from the Advance Search screen, select Kindle Book from the **Format** menu. You can also choose to specifically show only those titles that are not checked out.

Find a book! You'll know if a title is available if a **Borrow** button is displayed. If the book is unavailable, a **Place A Hold** button will appear instead. Before borrowing the item, select the duration of your checkout (1 or 2 weeks) and make sure that **Kindle Book** is listed under **Available formats**.

Amazon will tell you that the book is ready to download via their wireless service. Turn on your Kindle and go to the Archived Items screen. Find your book, download it and enjoy!

Overdrive titles can be renewed if the title has not been placed on hold. Ebooks can be returned early from the **Manage Your Content and Devices** page located in the **Your Account** drop down menu on the Amazon website.

First Generation Kindle Users

If you purchased the Kindle when it was first released, you will not be able to download books wirelessly. Instead, you will use the USB cable that came with your device to transfer books to your Kindle.

Follow the instructions above on how to search for Kindle books. When you click **Get Library Book** from the Amazon page, you will be asked to download the book onto your computer.

Thanks, Newport!

Newport's Kindle does not support Wi-Fi. Wi-Fi is required for wireless delivery of public library books. You can download **50 Ways to Protect Your Identity and Your Credit: Everything You Need to Know About Identity Theft, Credit Cards, Credit Repair, and Credit Reports** now and transfer the file from your computer via USB.
