Scott Peotter, Newport Beach City Councilmember

OFFICE OF
THE CITY CLERK
CITY OF NEWPORT BEACH

Response:

This proposed recall will waste \$500,000 of taxpayer dollars for a special election, when we have over \$500 million in debt. Recalls should be used for malfeasance, not policy disagreements or fulfilling campaign promises.

If recall supporters want me out of office they have the chance in November 2018 when I am running for reelection. Instead, they are already spouting lies and half-truths about me and my record to promote an expensive recall.

Check out www.peotter.com for direct responses to their accusations.

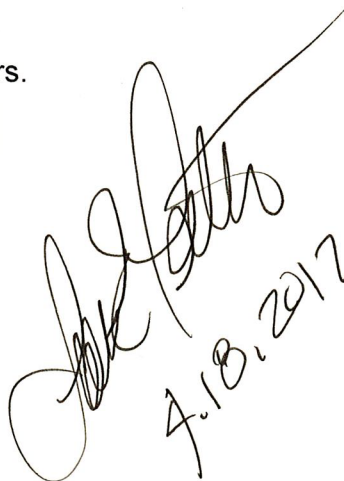

This recall is just sour-grapes by former Councilman Keith Curry who dug us deep in debt with expensive projects like the Taj-Ma-City-Hall and massive growth of pension debt.

I defeated Curry's hand-picked candidate Michael Toerge in 2014. Toerge is a recall proponent who has declared his candidacy in the recall rather than wait a few months for the regular election.

Since my 2014 election I have worked to deliver on my campaign promises. No one should be surprised with my efforts to;

- Save the Fire Rings
- Stop the Dock Tax
- Audit the \$150 million Civic Center.
- Enact the Taxpayer Protection Act
- Eliminate the Business tax

Public debate is a good thing for taxpayers.
