Imaging from Space presents this history of how the technology of taking images from spacecraft evolved from 1945 to present. It explains how the breathtaking images of Earth, planets and the universe beyond are made, and some background on the people, organizations, and technology that make it all possible as well as how that technology has been utilized.

### **Knit and Crochet Drive for Strength in Scarves**

OASIS will be collecting hand-knit or hand-crocheted items to support the local charity, Strength in Scarves. You can bring in anything made with your love and support: scarves, beanies, blankets, sweaters, baby clothes, purses, socks, stuffed animals, etc. Let your creativity flow, and bring the knitted/crocheted items to the OASIS Admin Office from December 1-January 31. For more information about Strength in Scarves, please visit [www.strengthinscarves.org](http://www.strengthinscarves.org) or [www.facebook.com/strengthinscarves](http://www.facebook.com/strengthinscarves).
