**DIRECTIONS:** Each page presents a different dilemma. The instructions appear below each diagram. The first time an item to be placed in the diagram is mentioned, it is **bolded and underlined**. Fill in the diagram so everything fits the facts.

## JAN'S CLOSET

Jan needs to organize her closet so she can find things better. Five things will go on the shelves (gray line) above the area where the clothes will hang (black line). Write the names of the articles in the boxes where they belong.

1. Jan wants her **blouses** to be the first things hanging on the left and her **jackets** to be the last things hanging on the right.
2. **Scarves** will be in boxes in the middle of the closet.
3. **Slacks** will be hung next to her jackets and directly below her **belts**.
4. **Gloves** will be on the shelf between her **socks** and scarves.
5. **Skirts** will go below the gloves and to the left of the **dresses**.
6. Jan's **hats** will go in the only remaining space on the shelf.
