# WORD TOWER

Every word in a word tower begins with the same two letters. You build the tower by increasing the length of each word by one letter. For example, a five-word tower built on the letters FA could include: FAN, FAST, FABLE, FACTOR, FAILURE.

How far can you go before you get stumped? Using the letters PA, we made a tower fourteen words high. (*Note: Proper nouns are not allowed, and you cannot just add an s to make a longer word. For example, if your four-letter word is part, your five-letter word cannot be parts.*) For an extra brain boost, see how tall your tower of words can get in two minutes.
