A Clean Home

“My idea of housework is to sweep the room with a glance.”
- Erma Bombeck

“A clean home is a happy home.”
- unknown

- Identify all tasks, create a recurring schedule, enter into calendar
Slide 14

  – Identify any necessary adjustments to your weekly recurring schedule

Plan For the Day Ahead

At the beginning of each day (or the day before)…
• Review your ‘to do’ list for the day
• Identify the day’s top 3 priorities
  – These should be your “immediate action” tasks
• Do the hardest one first!

Check things off as you complete them. And count how many things you donate or throw away, to feel pride in your progress!

**Note:** Have a ‘does not belong in the bedroom’ bin, a ‘donate’ bin and a ‘trash’ bin.

Handout D: The S.P.A.C.E Challenge

Pick an area you want to organize. Make sure the area is small enough that you can complete it in 15 minutes.

S – Sort all the items from this space into “like” piles on the floor or other flat surface. Keep your piles separated by category. Example: if you are doing your bathroom you could make a pile for “first aid supplies,” “medications”, “vitamins,” and “personal hygiene.” Keep sorting until your entire space is empty.

P – Purge

Go through each pile and let go of old, unused, or duplicate items that you no longer want to keep. Be ruthless!

A – Let’s assign a place for these newly sorted piles to call home!

EVERY thing should have a place to call home. Keep losing your keys? Keep them in the same spot ALWAYS. Don’t know where your cell phone is. Have ‘drop’ spots. The phone goes on either the kitchen counter, or on your desk. Always put it one of those two places!

Assign a place for these newly sorted piles to call home! Which of these things do you use most often? The items you use most often should be the easiest to access, so place these at waist or eye level. The items you rarely use should be stored on top shelves or in harder to reach areas. You may want to consider moving items to an entirely different space in your home during this time.

C – Contain

Measure the areas that you have “assigned” as new homes for your piles and find containers that will fit that space! Be sure the containers are large enough to hold everything in your sorted pile. Get creative! Reuse containers you already have or shop your local dollar store for budget-friendly options.

E – Evaluate

Evaluate your newly organized space from time to time to make sure it is still working for you! Make purging a part of your regular cleaning routine so that it never becomes out of control again.
Take this 30-Day Challenge!

Here’s a 30-day challenge for you. Set your timer for 15 minutes each day, purging items in the given space.

1. Under kitchen sink
2. Food containers
3. Bakeware and dishes
4. Utensil drawers
5. Fridge
6. Freezer
7. Pantry
8. Junk drawer
9. Linen closet
10. Bathroom drawers
11. Under bathroom sink
12. Medicine/toiletries
13. Dresser drawers
14. Under your bed
15. Closet
16. Shoes
17. Purses, bags, totes
18. Memorabilia
19. Children’s toys
20. Children’s clothes
21. Craft supplies
22. Laundry area
23. Desk/paperwork
24. Storage area
25. Books
26. Movies/games
27. Outerwear
28. Cluttered surfaces
29. Garage/shed
30. Tools

Now naturally, it may take quite a few 15-minute time slots for any given area. But the sense of satisfaction derived from each time slot can be phenomenal. Try it!
