

Section 4:

HOUSING PLAN

The Housing Plan describes the City of Newport Beach 2021-2029 policy program. The Housing Plan describes the specific goals, policies, and programs to assist City decision makers to achieve the long-term housing objectives set forth in the Newport Beach Housing Element. This Plan identifies goals, policies, and programs aimed at providing additional housing opportunities, removing governmental constraints to affordable housing, improving the condition of existing housing, and providing equal housing opportunities for all residents. These goals, policies, and programs further the City's overall housing policy goal to encourage a more diverse, sustainable, and balanced community through implementation of strategies and programs that will result in economically and socially diversified housing choices that preserve and enhance the special character of Newport Beach.

A. Regional Housing Needs Assessment

The Southern California Association of Governments (SCAG) has conducted a Regional Housing Needs Assessment (RHNA) to determine the City's share of the affordable housing needs for the Orange County region. The RHNA quantifies Newport Beach's local share housing needs for the region by income category. Income categories are based on the most current Median Family Income (MFI) for Orange County. The current 2021 MFI (for an assumed family of 4 persons) for Orange County is \$106,700. The MFI may change periodically, as it is updated on an annual basis. The City's 2021-2029 RHNA growth need of 4,845 housing units is allocated into the following income categories:

- 1,456 units - Very low-income (0-50% County MFI)
- 930 units - Low-income (51-80% of County MFI)
- 1,050 units - Moderate-income (81-120% of County MFI)
- 1,409 units - Above moderate-income (120% or more of County MFI)

A. *Housing Goals*

The City of Newport Beach has identified the following housing goals as part of this Housing Element Update:

Housing Goal #1: Provision of adequate sites to accommodate projected housing unit growth needs identified by the 2021-2029 RHNA.

Housing Goal #2: Quality residential development and the preservation, conservation, and appropriate redevelopment of housing stock.

Housing Goal #3: A variety of housing types, designs, and opportunities for all social and economic segments.

Housing Goal #4: Housing opportunities for as many renter- and owner-occupied households as possible in response to the market demand and RHNA obligations for housing in the City.

Housing Goal #5: Preservation of the City's housing stock for extremely low-, very low-, low-, and moderate-income households.

Housing Goal #6: Housing opportunities for special needs populations.

Housing Goal #7: Equal housing opportunities in the City for all people.

Housing Goal #8: Effective and responsive housing programs and policies.

The goals listed above are described below and on the following pages with accompanying policies and programs to achieve them.

B. Housing Policies and Program Actions

This Housing Element expresses the Newport Beach community’s overall housing goals and supporting policies and program actions to achieve them. The stated Housing Program Actions are based on a review of past performance of the 5th Cycle Housing Element, analysis of current constraints and resources, and input from Newport Beach residents and stakeholders. The policies and program actions contained herein were developed with ample community input through Workshops, Study Sessions and input received on the Draft document made available to the public. These policies and program actions include and reflect this input received through the course of developing the Housing Element document.

Housing Goal #1
Provision of adequate sites to accommodate projected housing unit growth needs.

Housing Policy 1.1: identify a variety of sites to accommodate housing growth need by income categories to serve the needs of the entire community.

Implementation Actions

Adequate Sites to Accommodate 2021-2029 RHNA

The City of Newport Beach has a total Regional Housing Needs Assessment (RHNA) allocation of 4,845 units. State law requires the City of Newport Beach to identify adequate sites to accommodate its fair share allocation for the 6th Cycle Housing Element. This City has identified a variety of candidate sites through extensive analysis in collaboration with the community and stakeholder through Newport, Together’s “Listen and Learn” process, multiple meetings of the City’s Housing Element Update Advisory Committee (Committee), participation by interested residents at a variety of public meetings, workshops, and consultation with property owners. The City of Newport Beach has identified an adequate amount of land that was determined by the Committee as “Feasible” or “Potentially Feasible” for future development. Only a portion of these candidate sites will be necessary to accommodate the City’s RHNA planning obligation. These sites have undergone a rigorous process to evaluate site features, development potential, developer/owner interest and other factors to deem them appropriate for housing during the 2021-2029 Planning Period.

As part of the analysis of adequate sites, the City has comprehensively reviewed opportunity sites citywide and have identify eight primary areas of opportunity:

- Airport Area Environs
- West Newport Mesa
- Dover/Westcliff
- Newport Center

- Banning Ranch
- Coyote Canyon
- 5th Cycle Housing Element Sites
- Accessory Dwelling Units

Since the City has identified several opportunity sites in the 5th Cycle that will be utilized in the 6th Cycle Housing Element, additional policy considerations are stated in this Policy Program.

These opportunities sites are described in map and tabular format in Appendix B of this Housing Element. Each of the opportunity areas described in this Housing Element have been assigned a targeted acreage, and a targeted number of new housing units (see following implementing Policy Action statements). Collectively, these targets must meet the unmet RHNA need as required by State law. It is expected there may be deviations from the targets with future implementing zoning actions. New opportunity sites may be identified, and other sites may be deemed unsuitable or densities may be modified, all based on new information received over time. The City may adopt future zoning strategies that are more or less than the identified targets in this Housing Element provided the total unmet RHNA need by income category is accommodated within state-defined deadlines. If future zoning strategies deviate from the targets expressed in this Housing Element but still meet the requirement to identify adequate sites to accommodate unmet RHNA need, no amendment to the Housing Element would be required and deviations of any magnitude may be considered subject to the City Council’s review and approval in consultation with the Community.

Policy Action 1A: Airport Environs Sub Area

The City will establish a housing opportunity overlay district, or similar rezoning strategy, in the Airport Environs area for 162 acres of land to provide for the accommodation of at least 1,454 housing units in the Very Low, Low, Moderate and Above Moderate-income categories. A Map and Table Summary of these sites are provided in Appendix B of this Housing Element. The overlay, or similar rezone strategy, will allow development of a variety of residential product types at a permitted average density of 50 dwelling units per acre.

Implementation of this program will also include but not limited to development standards, overlay text and entitlement procedures to, among other things, encourage the development of housing for persons of Very Low and Low incomes. In developing the overlay, or similar rezone strategy, the City will evaluate the potential to include a variety of incentive tools as appropriate, including but not limited to floor area bonus, density bonus, entitlement streamlining, fee waivers or reductions and other considerations.

Policy Action 1E: Coyote Canyon

The Coyote Canyon property is a closed landfill that is owned and managed by the County of Orange but leased to a private developer. The area is of substantial acreage but has limited development potential due to various environmental considerations. The developer has evaluated the entire landfill area and has concluded that 22 acres of the property is not subject to environmental constraints. Additionally, the City has been advised that the County has expressed interest in participating in a transfer of a portion of the property to accommodate residential opportunity.

The City will rezone at least 22 acres of land on the Coyote Canyon site, as shown in Appendix B, to accommodate at least 1,056 housing units at an average density of 60 dwelling units per acre.

Implementation of this program will also include development standards and entitlement procedures to encourage the development of housing for persons of Very Low and Low incomes.

Policy Action 1F: Banning Ranch

The City has identified the Banning Ranch area as a potential site to accommodate future housing needs. The City has previously approved housing development on this site, but the approved project was subsequently denied by the California Coastal Commission. The City believes there are approximately 30 acres of viable opportunity to provide housing for a variety of income levels and will continue to support development potential in the Banning Ranch Area.

The site is currently within the City’s Sphere of Influence. The City will work collaboratively with the County of Orange for annexation of the property and pursue entitlement of the area to provide opportunities for at least 1,475 units at an average density of 50 dwelling units per acre.

Implementation of this program will also include development standards and entitlement procedures to encourage the development housing for persons of Very Low and Low incomes.

To comply with State law, the City will amend Title 20 of the Newport Beach Municipal Code (NBMC) to permit residential uses by-right for housing development projects in which at least 20-percent

of the units are affordable to lower-income households. For the purpose of implementation of this program, by-right shall mean the City will not require a discretionary permit application, such as a Conditional Use Permit or Planned Unit Development Permit, that would constitute a “project” as described in Section 21100 of the Public Resources Code. For sites in the coastal zone, the City will continue to require coastal development permits to determine compliance with the City’s certified Local Coastal Program.

Timeframe: Complete Code Amendments within 36 months of Housing Element Adoption
Responsible Agency: City of Newport Beach Community Development
Funding Source: General Fund

Policy Action 1H: Accessory Dwelling Unit Construction

Accessory Dwelling Units (ADUs) are an accepted method of providing affordable housing in the City. Due to recent legislation, the ability to entitle and construct ADUs has increased significantly. The City recognizes the significance of this legislation as evidenced by a marked increase in ADU permit applications. Due to this legislation, the City believes aggressive support for ADU construction will result in increased opportunities for housing including affordable units.

The City will aggressively support and accommodate the construction of at least 1,000 ADUs by a variety of methods, including but not limited to:

- Developing and implementing a public awareness campaign for construction of ADUs with a systematic approach utilizing all forms of media and outreach distribution
- Preparing and maintaining a user-friendly website committed to information related to codes, processes, and incentives pertaining to the development of ADUs and JADUs in the City.
- Evaluating and assessing the appropriateness of additional incentives to encourage ADU development.
- Approve permit-ready standard plans to permit new ADU construction to minimize design costs, expedite permit processing, and provide development certainty for property owners.

Timeframe: Analyze methods within 12 months of Housing Element adoption; Establish programs within 24 months of Housing Element adoption.
Responsible Agency: City of Newport Beach Community Development
Funding Source: General Fund

Policy Action 1I: Accessory Dwelling Units Monitoring Program

The City will establish an ADU Monitoring Program during the 2021-2029 Housing Element Planning Period to formally track ADU development. The analysis will track applications for ADUs, location, and other important features. The intent of the Monitoring Program is to track progress in meeting 2021-2029 ADU construction goals and to evaluate the need to adjust programs and policies if the pace of construction is less than anticipated.

Timeframe: Develop Amnesty Program within 24 months of Housing Element adoption
Responsible Agency: City of Newport Beach Community Development
Funding Source: General Fund

Policy Action 1K: Inclusionary Housing Policy

The City has a substantial RHNA obligation of affordable housing that will be a challenge to accommodate due to prevailing project development costs include high land values. Therefore, the City must evaluate a variety of policy prescriptions that will encourage and facilitate the construction of below market-rate housing. The City will investigate inclusionary housing policy options as an additional means to provide a variety of housing types and opportunities for very low, low- and moderate-income households in Newport Beach. The City will assess and analyze a variety of inclusionary housing policy options, standards, requirements and regulations to determine the best course of action. Based upon this initial assessment, the City will determine the appropriateness and application of inclusionary policies, and adopt policies, programs or regulations that will produce housing opportunities affordable to very low, low and moderate-income households.

The City has determined that a base inclusionary requirement of 15 percent for new residential development to be affordable to very low-, low-, and moderate-income households is appropriate as an interim measure prior to the adoption of a final inclusionary ordinance or policy. The final inclusionary policy shall address development of rental and for-sale housing affordable to very low, low- and moderate-income households, as well as the applicability of this requirement and its alternatives.

Timeframe: Adopt interim inclusionary policy within 6 months of Housing Element adoption. Evaluate Inclusionary options and adopt an Ordinance within 36 months of Housing Element adoption.

The City will consult with the property owners and potential preservation organizations regarding the potential use of Community Development Block Grant (CDBG) funds and/or Affordable Housing Fund monies to maintain affordable housing opportunities in those developments listed in Table 3-17 of Chapter 3 of this Housing Element. The City may assist in the non-profit acquisition of the units to ensure long-term affordability, upon receiving notice that a property owner of an existing affordable housing development intends to convert the units to a market-rate development.

Housing Policy 3.1: Encourage preservation of existing and provision of new housing affordable to extremely low-, very low-, low-, and moderate-income households.

Housing Policy 3.2: Encourage housing developments to offer a wide spectrum of housing choices, designs, and configurations.

Implementation Actions

Policy Action 3A: Objective Design Standards

State Housing law includes various exemptions for projects with an affordable housing component, which limits the City’s ability to apply discretionary design review requirements to certain residential projects. State Housing law specifies having objective design standards available to apply to housing projects where the City’s discretion over design review is otherwise preempted per State law. The City of Newport Beach will review existing entitlement processes for housing development and will eliminate discretionary review for all housing development proposals that include a minimum affordable housing component. The City will also review the appropriateness of its current development standards to ensure that it reasonably accommodates the type and density of housing it is intended to support. The City will establish written procedures to comply with California Government Code Section 65913.4 and publish those procedures for the public, as appropriate, to comply with the requirements of SB 35, Chapter 366 Statutes 2017. These requirements apply at any point in time when the City does not meet the State mandated requirements, based upon the SB 35 Statewide Determination Summary Report for Housing Element progress and reporting on Regional Housing Needs Assessment (RHNA)., the City will process development projects with at least 50 percent affordable units through a streamlined permit process (i.e., 90 days for projects with up to 150 units). All projects covered by SB 35 are still subject to the objective development standards of the Newport Beach Municipal Code that includes the Building and Fire Codes. However, qualifying projects cannot be subject to discretionary review or public hearings; and in many cases the City cannot require parking. Reduced parking requirements would be established consistent with the requirements of SB 35 for qualified streamlining projects.

The City currently has consistently exceeded RHNA performance goals during the 5th Cycle. The City’s status regarding SB 35 could change during the 6th Cycle dependent upon RHNA progress throughout the 2021-2029 Planning Period.

Timeframe: Adopt procedures within 24 months of Housing Element adoption
Responsible Agency: City of Newport Beach Community Development

Policy Action 3C: Preservation of Rental Opportunities

The City will continue to maintain rental housing opportunities by restricting conversions of rental units to condominiums in a development containing 15 or more units unless the rental housing vacancy rate in Newport Beach is 5 percent or higher, and unless the property owner complies with condominium conversion regulations contained in Newport Beach Municipal Code Chapter 19.64. The City’s intent is to ensure no net loss in rental opportunities in existing sites that contain 15 or more units and that the conversion of rentals do not create an imbalance of opportunity in the community. The City will conduct an annual vacancy rate survey to support the implementation of this policy.

To protect lower and moderate-income rental housing, the City shall amend the Municipal Code to restrict the demolition of lower and moderate-income rental housing on sites that provide more than 15 units unless the units maintain the same income categories after demolition.

Policy Action 3N: Housing Impact Studies

The City will continue to study housing impacts of proposed larger-scale, significant commercial/industrial projects during the development review process. Prior to project approval, a housing impact assessment

shall be developed by the City with the active involvement of the developer. Such assessment shall indicate the magnitude of jobs to be created by the project, where housing opportunities are expected to be available, and what measures (public and private) are requisite, if any, to ensure an adequate supply of housing for the projected labor force of the project and any restrictions on development due to the City “Charter Section 423”. Housing Goal #4
Housing opportunities for as many renter- and owner-occupied households as possible in response to the market demand and RHNA obligations for housing in the City.

Housing Policy 4.1: Mitigate potential governmental constraints to housing production and affordability by increasing the City’s role in facilitating construction of market-rate housing and affordable housing for all income groups.

Housing Policy 4.2: Enable construction of new housing units sufficient to meet City quantified goals by identifying adequate sites for their construction.

Implementation Actions

Policy Action 4A: Affirmatively Furthering Fair Housing

Pursuant to AB 686, Chapter 958, Statutes 2018, the City will affirmatively further fair housing by taking meaningful actions in addition to resisting discrimination, that overcomes patterns of segregation and fosters inclusive communities free from barriers that restrict access to opportunity based on protected classes, as defined by State law.

To accomplish this, the City or designated contracted organization will collaborate with local and regional organizations to review any housing discrimination complaints, assist in dispute resolution, and, where necessary, refer complainants to appropriate state or federal agencies for further investigation, action, and resolution.

Section 3 of this Housing Element contains an analysis of fair housing activities in Newport Beach and the Orange County region.

The analysis found that:

- The City does not have any racial or ethnic groups that score higher than 60 on the dissimilarity index, indicating that while there are racial and ethnic groups with higher levels of segregation than others within Newport Beach, none meet the standard score to identify segregated groups.
- The City does not have any racially or ethnically concentrated census tracts (R/ECAPs) as identified by HUD. This indicates that there are no census tracts within Newport Beach with a non-white

population of 50 percent or more or any census tracts that have a poverty rate that exceeds 40 percent or is three or more times the average tract poverty rate for the metropolitan/micropolitan area. However, one R/ECAP was identified in the neighboring City of Irvine, near the University of California Irvine. This will be considered in the housing plan as students within the R/ECAP may look for housing in Newport Beach.

- The UC Davis Regional Opportunity Index shows that most residents within Newport Beach have a high level of access to opportunity throughout the majority of the City, with only two census tracts showing a moderate level of access to opportunity. No census tracts were shown as having the lowest level of access to opportunity.
- The analysis of the TCAC/HCD opportunity Area Maps shows that most census tracts in Newport Beach are classified with the “Moderate Resource” “High Resource” or “Highest Resource” designation. This indicates that these census tracts are within the top 40 percent in the region in terms of areas that lower-income residents may thrive if given the opportunity to live there. All but two census tracts within Newport Beach register within the top 20 percent in the index. One census tract registered as a “Low Resource” area, citing high economic opportunity and low educational opportunity.
- The Opportunity Indices identify overall high access to quality resources including economic and job proximity, educational access, and transportation access. However, there is a low health index, indicating increased pollution and low environmental quality across all racial/ethnic groups in the City. Additionally, the opportunity indices identify low affordable transportation options to both the Asian or Pacific Islander (Non-Hispanic) and Native American (Non-Hispanic).

The City will continue to collaborate with the community, stakeholders, and appropriate organizations to address potential constraints to fair housing. This may include, but not limited to:

- Analysis and identification of barriers to entry into homeownership or rental opportunities,
- Review of historic policies or restrictions that may have prevented and/or may still prevent disadvantaged groups from locating in Newport Beach,
- Specific actions that contribute to Newport Beach’s ability to foster a more inclusive community to all racial, social, and economic groups.

The City will update its Density Bonus Ordinance (Newport Beach Municipal Code Chapter 20.32) to be consistent with State Law, as amended. Additionally, the City shall either grant a density bonus as required by state law if requested, or provide other incentives of equivalent financial value when a residential developer agrees to construct housing for persons and families of very low, low, and moderate-income above mandated requirements. The City will continue to implement provisions of Chapter 20.32, as amended (Density Bonus) of the Zoning Code as housing projects are submitted to the City during the 6th Cycle. Policy Action 4E: Airport Area Policy Exceptions for Affordable Housing

The City recognizes that General Plan Policy LU6.15.6 may result in a potential constraint to the development of affordable housing in the Airport Area, and as a result, the City shall maintain an exception to the minimum 10-acre village requirement for projects that include a minimum of 30 percent of the units affordable to lower-income households. It is recognized that allowing a smaller scale development within an established commercial and industrial area may result in land use compatibility problems and result in a residential development that does not provide sufficient amenities (i.e., parks) and/or necessary improvements (i.e., pedestrian walkways). Therefore, it is imperative that the exception includes provisions for adequate amenities, design considerations for the future integration into a larger residential village, and a requirement to ensure collaboration with future developers in the area. The City of Newport Beach will maintain the exception and continue to implement this program as projects are submitted to the City in the 6th Cycle.

Policy Action 4H: Review Mixed-Use Zones

As part of the 2006 Comprehensive General Plan Update and 2010 Zoning Code Update, new mixed-use housing opportunity zones were created throughout the City as a strategy to enhance and revitalize underperforming and underutilized properties. These areas included the Airport Area, Dover/Westcliff, Newport Center, Mariners Mile, and portions of the Balboa Peninsula. The Airport Area and Newport Center have proven the most successful with several approved and constructed mixed-use developments, such as Uptown Newport and Villas Fashion Island. The Balboa Peninsula has had some limited success while Dover/Westcliff and Mariners’ Mile have not proven successful to-date.

Despite the housing opportunity that was created in these areas, a majority of these sites remain underutilized with a single, non-residential use, such as retail or office. It is evident the City’s existing

development standards (e.g., setbacks, height, density, parking, dedications, etc.) related to mixed-use development may create constraints to the redevelopment of these properties.

Therefore, to ensure that mixed-use opportunities are maximized, the City will review established mixed-use land use categories and corresponding zoning regulations in the City and recommend policy or code changes to the City Council that reduce regulatory barriers and incentivize mixed-use residential development.

Timeframe: Complete the review and provide recommendations to the City Council within 12 months of Housing Element Adoption, and then complete a review annually thereafter.

Policy Action 4I: Establish Mixed-Use Resort Opportunities

Mixed-use resorts are an established trend in the hospitality industry that incorporate hotel-branded residential units as an accessory use located within a resort hotel complex where residents enjoy access to the full range of services, facilities, and amenities provided by the hotel operator or brand. The residential use cannot exist without the hotel’s services, facilities, and amenities.

The hotel industry has been one of the hardest hit industries due to the COVID-19 pandemic and a full recovery of the industry is not anticipated for many years. Mixed-use resorts provide an opportunity to revitalize older or underperforming hotels and maintain their competitive standing by creating multiple revenue streams.

Economies of scale created by shared facilities, amenities, and services add additional benefit to mixed-use resort developments. This cross pollination of business benefits both the hotel and the resident. It may also increase occupancy rates at the resort by creating increased synergy between uses and social gathering opportunities, boosting transient occupancy taxes while providing in-fill housing opportunities to partially assist the City in meeting its RHNA obligation in highly desirable and built-out areas. Incorporating residences also helps to off-set cyclical variations in hotel occupancy rates that can, for instance, result in seasonal decreases in revenue for the hotel’s food and beverage offerings.

Therefore, to further encourage and incentivize the development of mixed-use hotels, the City will consider policies, regulations and/or interpretations to: 1) clarify ambiguities in General Plan, Zoning Code, and/or Local Coastal Plan Program provisions to allow hotels and motels, located outside of the Coastal Commission Appeal Areas, to convert up to thirty percent (30%) of their permitted hotel and motel rooms into residential units on a one-for-one basis; 2) establish parking programs (e.g., shared parking) and/or reduced residential parking requirements that mitigate the need for any additional parking due to the conversion to residential use; 3) require a fiscal impact analysis to disclose and mitigate any reduction in transient occupancy tax due to a potential conversion; 4) increase the flexibility in use of transfer of development rights to allow for transfer of unbuilt residential units to hotel sites; 5) require property owners converting permitted hotel and motel rooms into residential units to mitigate impacts to on affordable housing production by either constructing affordable housing units within the development or through a contribution of in-lieu fees; 6) require mitigation of impacts to public access for potential

conversions located within the Coastal Zone; and 7) require property owners converting permitted hotel and motel rooms into residential units to enter into a development agreement to ensure implementation of this policy at the project level.

Timeframe: Establish policies, regulations and/or interpretations within 24 months of Housing Element Adoption.
