Bi-Partisan Working Group on Substance Abuse Treatment

- Stop exploitation in the recovery industry
- Establish standards for treatment programs and providers
- Ensure that taxpayer dollars are being directed to proven programs that work
AB 1158: Insuring Safety in Recovery Settings for Consumers

Effective January 1, 2022:

- Ensures patients and workers are made whole if harmed by a unscrupulous operator
- Establishes a mechanism for consumer attorneys to go after bad operators
- Allows the California Department of Insurance to do more regulation and investigations in the recovery industry

Contracted Recovery Residences & Licensed Facilities > 6

- Commercial general liability, min $1M per occurrence
- Workers’ compensation and employer’s liability, min $100K
- Commercial or business automobile liability, min $1M
- Professional liability with contractual liability, min $1M per occurrence and $2M aggregate

Smaller Licensed Facilities < 6

- General Liability (Residential)
Insurance Fraud: Investigations and Prosecution

- Fraud in the Recovery Industry = Fastest Growing Insurance Fraud in California

- CA Department of Insurance Investigations Unit - 300+ including law enforcement personnel

- Recent Actions:
  - January 2020 - Orange County District Attorney’s (OCDA) Office and California Department of Insurance (CDI) shut down a $3.2 million health care fraud ring which preyed on vulnerable substance abuse patients in order to bilk an insurance company out of millions.
  - June 2020 - OCDA and CDI charged five additional defendants in a $60 million sober living home fraud scheme designed to traffic vulnerable substance abuse patients from outside California into treatment facilities in Orange and Riverside counties and to bilk insurance companies out of millions of dollars
Next Steps: Oversight and Enforcement

- Oversight Hearings
- Letters to DHCS/DSS/District Attorneys
- Legislation
Too many vulnerable patients are being recruited into addiction treatment facilities that are not properly staffed to meet patient needs

Require proper training and licensing for employees of addiction treatment centers for treatment programs AND all employees

Empower patients, family members, and our local communities to hold bad actors accountable through civil action—providing attorney fees to the prevailing party

Santa Ana, CA 92703

RE: Irresponsible Operators with Pending Licenses for a Social Rehabilitation Facility

Dear Mr. Spitzer,

Thank you for being a partner in patient protection. I am writing to express my concern about an operator in our community, Acera Health, who has applied for licenses at the California Department of Social Services (CDSS) to operate social rehabilitation facilities in Orange County. I appreciate your focus on ensuring that there are patient protections in this industry. We know that an operator’s ability to abide by regulations is an important indicator of the quality of care they will offer vulnerable patients. Regulations are established to ensure patient safety and healthy outcomes. However, the residents of the Upper Newport Bay community have brought to my attention that Acera Health has violated several regulations for social rehabilitation operators.

It is my understanding that before a facility is licensed, if they break laws and regulations that you are equipped to stop them from operating and potentially harming a rehab patient, and holding them accountable should the violations prove to be true. In October, I asked CDSS and DPHCS to investigate these violations and deny Acera Health’s license requests based on what I see as clear violations of current law. If Acera Health is licensed to operate these facilities, they will have the opportunity to fix their past violations and will subsequently fall under the jurisdiction of CDSS.

Some examples of their violations include the following: on or about August 21, 2021 demolition of the interior of the 2555 Vista Bay, Newport Beach property began. The construction activity continued over the next two weeks including late evenings after dark. City

RE: Irresponsible Operators with an unknown Pending License

Dear Kim Johnson,

Thank you for your continued partnership with my office. I am writing to express my concern about an operator in our community, Eden by Enhance, LLC, who has applied for a license at the California Department of Social Services (CDSS) at 35 Main Street in Irvine. Residents in the surrounding University Park neighborhood brought the matter to my attention and are upset by a lack of transparency in regard to the nature of the license this operator is seeking. They have already raised possible violations of current regulations, such as false advertising and the number of patients and staff that will be residing at the residence.

In order to provide an open and transparent process for the residents in University Park, I would like to know additional information about where this facility is in the license application process. Further it is important to know the number of patients and staffing levels they have for the license they applied for, along with type of license this operator is applying for.

We need your help for public transparency. The neighborhood deserves to know the facts about this proposal. If you would like to discuss this further then please reach out to my Chief of Staff, Claire Conlon, at 949-251-0074.

Kindest Regards,

Cottie Petrie-Norris AD74
