Recycle Right, Newport Beach!

A guide to the new rules for sorting trash and recyclables

DURING THE MONTHS OF FEBRUARY AND MARCH, the City of Newport Beach and our contractor, CR&R Environmental Services, are rolling out new recycling containers, along with trash and recycling improvements to meet a new state law that requires all California municipalities to accept yard waste, which includes yard waste and food scraps.

The City and CR&R are also implementing changes to increase efficiency and reduce disruption to Newport Beach residents by cutting down on noise and pollution from collection trucks. The changes will help protect the environment and preserve Newport Beach's quality of life.

We appreciate your help to work together as a community and recycle right!

FAQ

UPDATE
bewell

Why are the changes happening?
A new law, Senate Bill 1383, took effect Jan. 1 and requires all California residents and businesses to recycle organic waste, including food waste and green waste, in addition to standard recycling materials. The goal is to reduce organic waste by 75% by 2025, to reduce the impact on landfills and address climate change. As organic waste decomposes in landfills, it emits 20% of the state's methane and high levels of greenhouse gases.

Is my collection day changing?
Newport Beach residents' recycling service day will fall on the same day as trash collection. Some residents may have their collection days adjusted, beginning in February. Visit www.newportbeachca.gov/findmycollectionday to see if your collection day has changed.

What is "organic waste"?
Organic waste is any material that is biodegradable and includes food waste, green waste, landscape waste, nonhazardous wood waste, and food waste mixed in with food waste.

Residents expect to pay more for services?
Fees will not increase under the new program. Residents do not pay directly for trash pickup. Residents pay a recycling fee to partially offset costs of the recycling programs.

Do I have to use all three carts?
Yes. All Newport Beach homes are now required to use the three separate carts: A black-top cart for trash, a blue-top cart for standard recyclables and a green-top cart for organics. A two-gallon pail will be provided as an optional way to collect food scraps in the kitchen.

Can I request different sized recycling carts?
Yes. Once distribution of the green-top organic recycling carts is complete in late March, you can request a smaller or larger cart to fit your needs. Call CR&R at 949-667-4158 or NewportBeach-Recycles@CRRMail.com to request a different sized cart. To see the available cart dimensions visit www.newportbeachca.gov/recycle.

I currently place my trash in bags on the street. Can I continue to do so?
No. All trash and recycling in Newport Beach must now be placed in the proper carts. The trash and recycling carts should not be overfilled.

How can I request help with my weekly pickup?
Disabled residents who are not able to place carts on the street each week can receive free assistance. The "roll-out" service is also available to other residents for an additional fee. Call 949-667-4158 to sign up.

Where can I learn more?
Residents and businesses can find more information, including a detailed list of frequently asked questions on the City's website at www.newportbeachca.gov/recycle.

For Customer Service regarding your trash pickup, please contact **CR&R's Customer Service Department at Customer Service Department** at 949-667-4158. For faster response, please email CR&R's Sustainability Team at NewportBeach-Recycles@CRRMail.com.

CHECK IT OUT!

Tidepools are a fun way to safely explore the ocean.

spring. Look for days where the tide is very low. You can check local tide times at newportbeachca.gov/nature.

newportbeachca.gov/nature

spot these key species during very low tides:

- California Two Spot Octopus
- Sea Stars
(not a fish, so the name starfish is inaccurate!)
- Sea slugs
(Navanax, Sea Hares, or brightly colored Nudibranchs)

UPDATE?

It is essential to minimize human impacts on these sensitive areas at all times, remembering the **4 rules of the tidepools:**

1

Don't remove anything (even shells)!

2

Observe animals where they are

3

Walk gently and avoid stepping in pools of water

4

Never turn over rocks

Bridges of Buck Gully Hike

Led by Irvine Ranch Conservancy Staff

Buck Gully is a natural, coastal canyon which opened to the public in 2012 with the installation of four bridges to allow for safe public access. These bridges facilitate exploration of the Buck Gully Reserve, and also provide viewing platforms from which to pause and observe the abundant life in and around the stream. The guided program starts with a short walk from the OASIS Senior Center to the beginning of the Buck Gully trail, offering a visually dramatic entrance into this special canyon.

- **Walking pace, approximately 3 mph.**
- **Distance:** 5 miles
- **Duration:** 3.5 hours

LEGO Robotics

Parker-Anderson Enrichment

Challenge aspects of your creativity and intellect while learning the basics of engineering and physics! Students are given new and different projects every day to build, test, and modify as they graduate to the next level of engineering comprehension. This class is as fun as it is inventive! Students do not get to take home any of the LEGO projects, but the instructor will send pictures of the students with their completed projects at the end of the session through email.

Ocean Adventure Program

Ocean Adventure Programs

PROFESSIONAL - EDUCATIONAL – EXPERIENCED NEW location at the Community Youth Center (CYC) in Corona del Mar. Join Ocean Adventure Program's amazing staff and 45 years experience as we make learning a "Whale of an Adventure!" Mornings, campers go to Little Corona Beach to explore the tide pools, learn about ocean safety and swim under the watchful eyes of our CPR and First Aid certified teachers and camp counselors. We are a 5-minute walk to the beach at Big Corona, waves and tide pools. Little Corona to CYC: Counselors will walk our campers safely to CYC, approximately a 15 to 20 min walk. Afternoons are spent in Corona del Mar at the Community Youth Center (CYC), where campers will dissect a variety of creatures including a shark and a starfish, examine plankton under a microscope, test for density, watch chemical reactions, grow crystals, make fish prints, do ocean related arts and crafts, and conduct hands-on experiments. We have a 4 to 1 student to teacher ratio. There is always something new to learn each week! Pizza party is provided on Friday.

- **Provided:** all equipment, camp t-shirt and hat.
- **Notice:** Drop-off mornings at 200 Poppy Ave Corona del Mar, CA 92625 at the top of the ramp at Little Corona Beach. Pick-up will be at the Community Youth Center in CDM - 3000 Fifth Ave, Corona del Mar, CA 92625

Our young scientists will explore all sorts of new experiments as they discover engineering by building and battling motorized LEGO jousts and creating hydraulic LEGO arms as they learn all about the wonders of water. Students will even build massive catapults, launch air powered rockets of their own design and make magnetic slime! Each experiment will provide fantastic opportunities for learning and fun. Get started with STEM early in this fantastic course for little ones.

TECHNOLOGY

3D Game Development with Unity

BrainStorm STEM Education

Create your own 3D game using Unity, the leading professional 3D game design engine. This course will teach game design principles, mechanics and level design. Discover how to add objects, apply physics and implement behaviors into your game. Students will develop problem solving skills, explore game design and gain diverse knowledge of game creation.

Action Movie Workshop

Movies By Kids - O.C.

Are you a big fan of fast-paced movies loaded with action-packed scenes? In this exciting workshop, students will write, direct, and produce action sequences for the camera featuring stunt-fight training and film choreography. Then your footage hits the editing room where we dub in sizzling sound effects and voice-overs.

- Additional fees: \$30 (lab/editing)
- Notice: all projects will be available to view and download online.

Code Academy: Python Programming

BrainStorm STEM Education

Python is a powerful, multi-purpose programming languages that can be used for web development, artificial intelligence, scientific computing, apps, games and more. This course provides an interactive and educational experience that will help breakdown the fundamentals of programming in an intuitive and engaging way. Students will be introduced to fundamental coding concepts such as variables, functions, and conditionals through hands-on projects.

Robot Building

Parker-Anderson Enrichment

Build both in-class and take-home robots. Participate in group robotics challenges using a variety of materials including K'NEX, motors, wires, screws, batteries, and more. The class will include three take-home robots. The in-class robots cannot be taken home, but the instructor will send pictures of students with their completed projects through email at the end of the session.

Star Wars & Superhero Coding

BrainStorm STEM Education

In this amazing camp, kids create awesome Star Wars and Superhero games of their own design. Students will discover their own superpowers as they unlock the power of coding by programming heroes to battle bad guys, leap over tall buildings and capture the villains. Then create code to fly an X-wing, wield a lightsaber or use the Force. During the course, kids will use Scratch to think creatively while learning fundamental coding concepts, such as loops, variables, and constructors.

SWIM DESCRIPTIONS

AMERICAN RED CROSS - LEARN TO SWIM! Children will be evaluated on the first day for appropriate placement. Water Safety Instructors reserve the right to move a child to a more developmentally appropriate class.

Child must be minimum age by first day of class.

Parent & Me (6 months–3 years) **\$35**

Introduces the child and parent to water orientation and achieving a high level of comfort for infants and toddlers around water. Instruction will be on the basic skills of elementary swimming.

Non toilet-trained children must wear swim diapers.

Parent/adult is required to be in the water with the child.

Sea Stars: Preschool (ages 3–5) **\$56**

Young children are introduced to water exploration and safety in a fun learning environment. Skills introduced include water entry/exit, submerging, floating and kicking.

Sea Jellies: Level 1 **\$56**

For children with little or no swimming experience. Basic skills taught include water entry, blowing bubbles, floating, flutter kicking and safety.

Sea Horses: Level 2 **\$56**

Children must possess skills from the previous level and swim 10 yards unassisted. Skills include freestyle with side breathing, backstroke, butterfly kick, elementary backstroke and water safety.

Sea Squids: Level 3 **\$56**

Children must be able to swim freestyle with side breathing, backstroke, and elementary backstroke for 25 yards. Instruction focuses on endurance with backstroke and freestyle, master freestyle side breathing, and build on butterfly and elementary backstroke. Breaststroke, side-stroke and turning at the wall will be introduced.

Sea Lions: Level 4 **\$56**

Children must be able to swim freestyle and backstroke efficiently for two lengths of the pool (50 yards) and have basic swimming knowledge of the 4 competitive strokes and two resting strokes. Instruction focuses on the coordination and refinement of all strokes and increased distance.

Private Swim Lessons **\$90**

Lessons are limited and are offered one-on-one. Each class is scaled to the participant's skill level. Classes are 25 min and run for 4 lessons, Mon-Thurs.

Private Swim Lessons \$90
