DIRECT INSTALL

**AN EFFORTLESS PROGRAM THAT
PROVIDES YOUR BUSINESS WITH
FREE ENERGY EFFICIENT PRODUCTS,
FREE INSTALLATION AND
LONG-TERM ENERGY SAVINGS.**

Direct Install Program

- **FREE ENERGY SAVINGS ANALYSIS**
- **FREE ENERGY SAVINGS PRODUCTS**
- **FREE INSTALLATION**

DIRECT INSTALL PROGRAM

Qualifying SCE business customers can receive:

- **FREE** Energy Saving Analysis
- **FREE** Energy Efficient Products
- **FREE** Product Installation

It's easy to improve your bottom line!

- **First**, an SCE contracted energy expert will come to your facility to help identify energy savings opportunities.
- **Next**, get **free installation** of **free energy** efficiency products by SCE's approved contractors.
- **Then**, enjoy **saving money** on your energy costs!

Once the energy-*saving* equipment is installed, your *business* will be visited for a review to ensure your complete *satisfaction*.

Items installed are warranted for one year.
Program effective until funds are exhausted. The Direct Install Program is funded by California utility customers and is administered by Southern California Edison under the auspices of the California Public Utilities Commission.

FREE ENERGY SAVING PRODUCTS

SCE business customers with less than 100kW electric demand are eligible for immediate energy efficient products such as:

Refrigeration

Gaskets, night covers, auto-closers, bare suction lines and strip closers can improve the energy-efficient operation of your refrigeration equipment.

Fluorescent Lighting

Fluorescent lighting can save you up to 42% on lighting costs every month and help lower your cooling costs! (Lighting projects are limited to \$10,000 per project site.)

LED Exit Signs

You can save up to 95% on your electricity costs by using LED exit signs, saving you up to \$1,000 over the lifetime of each sign.
